

Description

- Nominal pressure: PN 6
- Available in different sizes (inlet and outlet)
- High resistance to UV sunlight
- High ability in chemical corrosion resistance
- Maintenance, replacement and remove convenient
- Resistance to mechanical stresses
- Compatible thread with VISPAR risers

Resistance against pressure during bending the output side (ISIRI 8996)

Testing Pressure(bar)	Testing Time(hour)	Testing Temperature(°C)	Result
9	1	20	No Leakage

Thread Connection (ISO 1-7)

Thread per inch	Diameter (mm)
11	44.9

Resistance to Internal Hydrostatic Pressure Test (ISO 1-9393)

	Testing Pressure(bar)	Testing Time(hour)	Testing Temperature(°C)	Result
Short Time	12	1	20	No Leakage
Long Time	3	170	80	No Leakage

Resistance to Internal Negative Pressure (ISO 3459)

Testing Pressure	Testing Time(hour)	Testing Temperature(°C)	Result
0.8 , 0.1	1	20	No Leakage
